# **Agenda Item #4B**

---

# Wildfire

- Wildfire is a significant and growing threat
- A Countywide Fire Safe Council and CWPP is a best practice
- Stable funding sources are available to build county-wide capacity, including a grant-funded County Coordinator
- Individual annexes address local risks
- The recently awarded \$250,000 CAL Fire grant to update the CWPP should leverage economies of scale recognized through interagency projects and prioritization
- Information should be available through all city websites and programs with a database of programs and metrics

---

# Fire Prevention

- The delivery of fire prevention services in Santa Clara County is complex and potentially confusing to developers and businesses:
  - 15 fire codes
  - 11 Fire Marshals
  - 9 fire agencies
- Although not all cities meet state mandates for annual inspections of high-risk occupancies (schools, multi-family dwellings, detention facilities, and licensed occupancies), it is unknown how many are out of compliance and the number that also neglect to report status annually to the State Fire Marshal and their Board, as required by State law (SB 1205, 2018). CCFD states 90% are completed for the 9 cities they serve.

- continued -

---

## Fire Prevention

- The county-wide Unidocs program for hazardous materials is a best practice
- The Santa Clara County Fire Investigation Task Force is a best practice for fire investigation
  - Each city/fire agency should have access to their data for identification of unique “fire problems”

Fire and EMS problems most often relate to individual behaviors. Education is the best way to change behavior. Most cities are lacking in public education and, thus, incident prevention.

---

## Emergency Preparedness

- Wildfire and earthquakes are significant threats to the county
- Fourteen of 15 cities in the county have their own preparedness information and programs; Los Gatos and Monte Serrano share programs and resources, a best practice
- The Santa Clara County OEM (2019) between the County and CCFD is a best practice, with co-location of personnel and leadership
- The 2017 EOP (2022 update) is a best practice

## **Draft Recommendations – Areas Outside of a Local Fire Service Provider**

- **Aims of ensuring all territory in the County lies within the boundaries of a local fire protection provider**
  - Address public safety deficiencies in areas with residents and/or identified as Local Responsibility Area
  - Ensure ability of an agency to provide that service or to contract with another agency
  - Enhance efficiency of dispatch and response in critical areas
  - Enhance accountability for services
  - Allow agencies to recoup some costs for services likely already provided

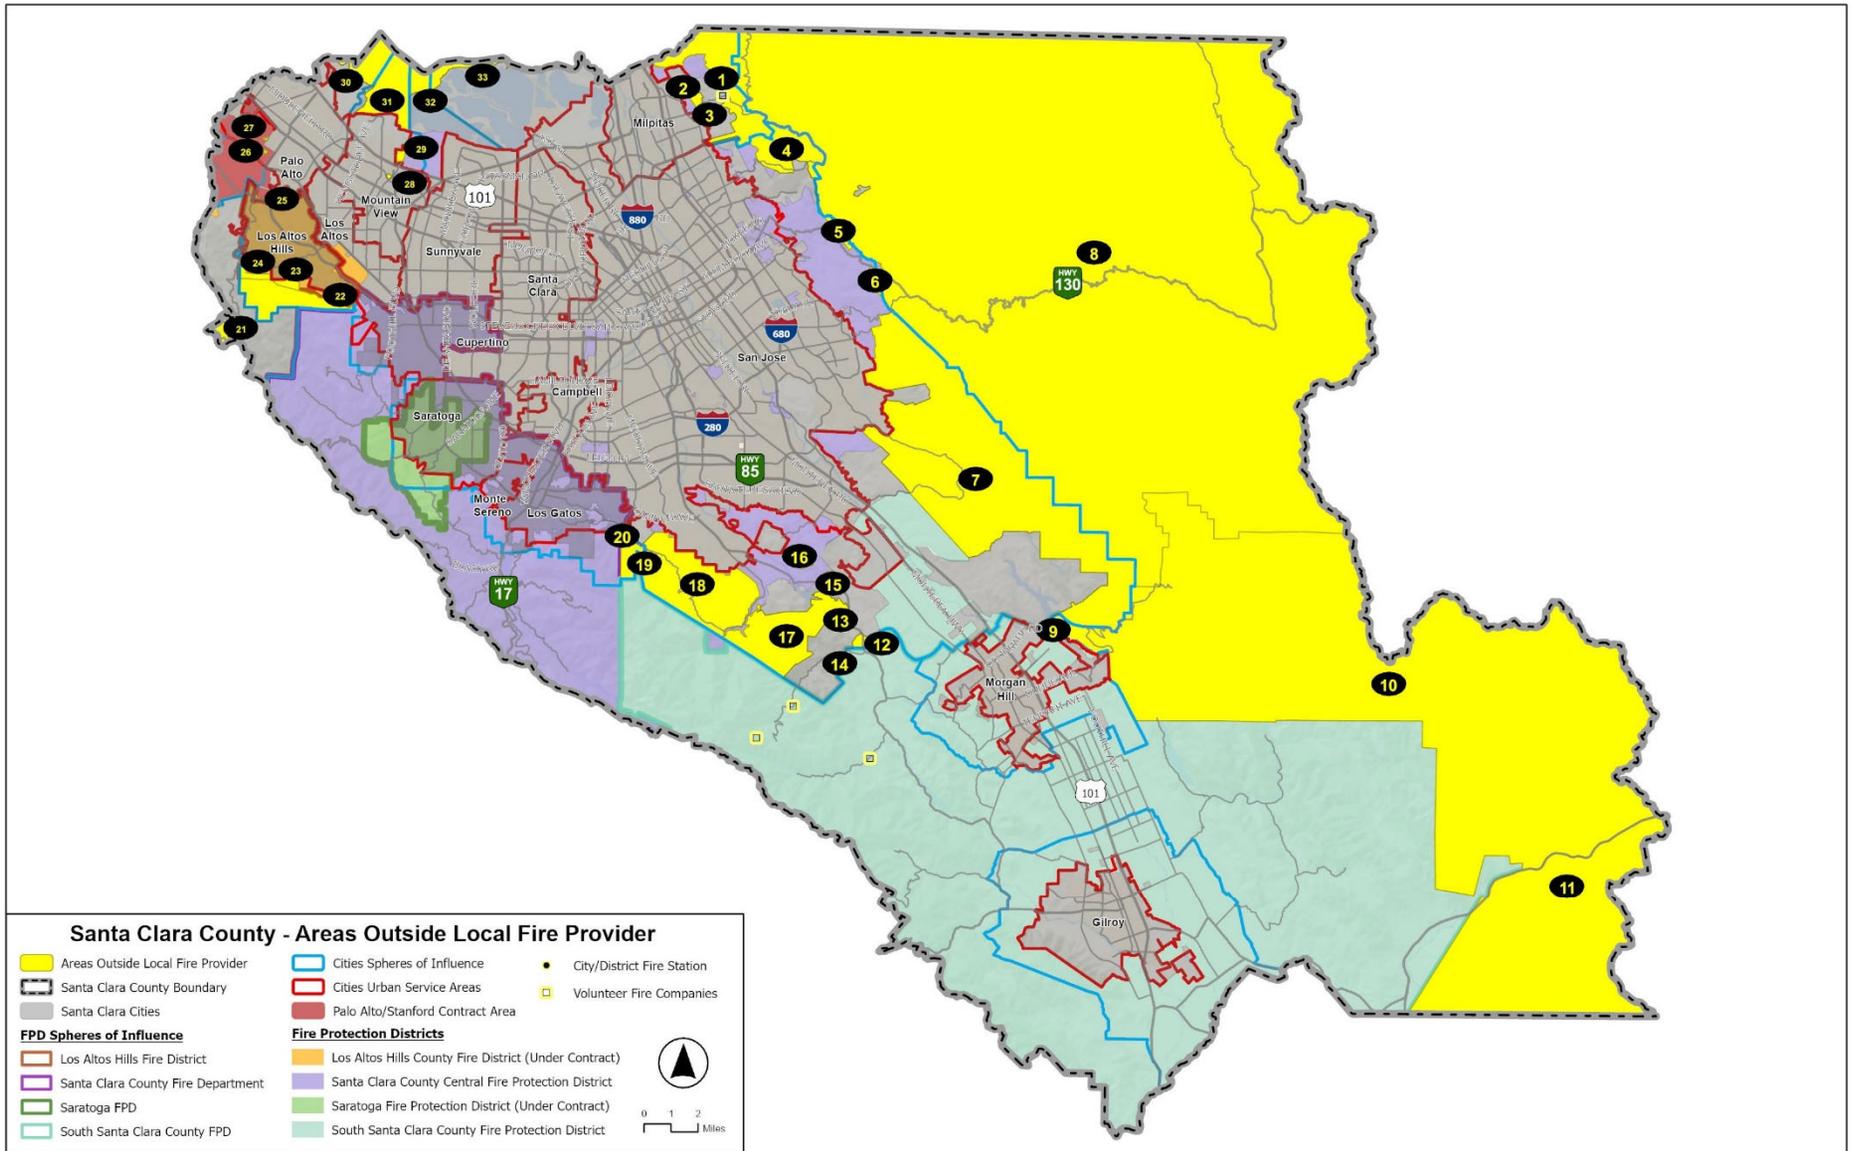

- continued -

## **Draft Recommendations – Areas Outside of a Local Fire Service Provider**

- **How this informs the Sphere of Influence recommendations**
- **Draft recommendations for the 33 areas based on:**
  - Land use and demand
  - Orientation with agency borders and planning lines
  - Available service options
